

Annex 1: Conceptual Framework of the Swiss-Czech Cooperation Programme

The Conceptual Framework is an integral part of the Framework Agreement between the Government of the Czech Republic and the Swiss Federal Council concerning the implementation of the Swiss-Czech Cooperation Programme. The Conceptual Framework defines objectives, principles, strategies, geographic and thematic focus as well as indicative financial allocations.

1. Objectives

The Swiss-Czech Cooperation Programme pursues two objectives:

- To contribute to the reduction of economic and social disparities between the Czech Republic and the more advanced countries of the enlarged European Union (EU); and
- To contribute within the Czech Republic to the reduction of economic and social disparities between the dynamic urban centres and the structurally weak peripheral regions.

The Swiss-Czech Cooperation Programme includes national and trans-national Projects that support a sustainable, economically and socially balanced development.

Towards the end of the implementation period of the Swiss Contribution, both Parties may jointly decide on a global evaluation of the results achieved by the Swiss-Czech Cooperation Programme.

2. Principles

The Swiss-Czech cooperation is guided by the following principles:

Transparency. Transparency and openness are key to all cooperation activities and are binding at all levels. Special emphasis shall be given to transparency in project selection, contract awarding and financial management.

Social inclusion. Cooperation activities aim at including socially and economically disadvantaged individuals and groups in the opportunities and benefits of development.

Equal opportunities and rights. Cooperation activities aim at increasing women's and men's opportunities to exercise their rights equally through a gender-based approach.

Environmental sustainability. Cooperation activities aim at incorporating requirements of environmental sustainability.

Commitment by all stakeholders. All institutions and decision-makers involved in the Swiss-Czech Cooperation Programme are committed to an efficient and effective implementation of the agreed Projects.

Subsidiarity and decentralisation. Cooperation activities aim at including considerations of subsidiarity and decentralisation primarily in Projects at the municipal and regional levels.

3. Strategies

3.1 Main Strategic Considerations

The Swiss-Czech Cooperation Programme is part of a comprehensive national development planning that includes the structural and cohesion programmes of the EU as well as the programmes of the EEA and the Norwegian Financial Mechanisms. The Swiss Contribution shall be complementary to these programmes and mainly focus on Projects that are not or only partially covered by other financial sources.

Main strategic considerations include:

a. Focusing. The Memorandum of Understanding between the Swiss Federal Council and the Council of the European Union defines four funding guidelines for the Contribution:

- Security, stability and support for reforms;
- Environment and infrastructure;
- Promotion of the private sector; and
- Human and social development.

These funding guidelines and the related focus areas provide a broad base for cooperation. Efficiency and effectiveness considerations as well as concern for the optimal allocation and use of available resources, are important. Therefore, the Swiss-Czech Cooperation Programme shall have a clear strategic focus, guided by the following considerations:

- Concentration on a maximum of eight focus areas in which at least 70% of the Contribution shall be spent (thematic concentration). The selection of the focus areas shall be need-based and take into account specific Swiss know-how.
- Concentration on three peripheral and less-developed regions (NUTS III) in which at least 40% of the Contribution shall be spent (geographic concentration).
- Concentration on a relatively small number of Projects.

b. Programme approach. A programme consists of component projects linked by a common theme or shared objectives. A programme approach shall be applied in focus areas which display several of the following characteristics: large financial Commitments; linking of different levels (national, regional, local); variety of actors; contribution to policy development; significant contributions to capacity building; and application of a common set of rules and procedures. A programme approach implies a delegated authority for decision-making on individual projects. A programme approach includes: an initial assessment of the focus area; the definition of objectives, guidelines and budgets; a programme implementation plan; and a sector monitoring and evaluation concept. To assure efficiency and effectiveness, the contribution to a specific programme shall represent a minimum amount of CHF 4 million. In exceptional cases lower minimal financial volumes may be agreed between both Parties.

c. Individual project approach. An individual project approach shall be applied in a focus area in which stand-alone projects shall be implemented. To assure efficiency and effectiveness, the contribution for each project under the individual project approach shall represent in general a minimum amount of CHF 1 million. In exceptional cases lower minimal financial volumes may be agreed between both Parties.

d. Block Grant financing may provide a means to accommodate smaller projects (see Annex 3).

e. Trans-national Projects. The Contribution may be used to finance trans-national Projects.

f. Partners and beneficiaries. The Swiss-Czech Cooperation Programme shall include partners and beneficiaries from the public and private sectors, non-governmental organisations and other civil society organisations.

g. Partnerships. Partnerships between Swiss and Czech partners are an enriching element of the Swiss-Czech Cooperation Programme. Cooperation and partnerships are strongly encouraged, especially in focus areas in which Switzerland may contribute particular experience, know-how and technologies.

h. Flexibility. Flexibility and the possibility to react to opportunities require that initially only about 80% of the Contribution shall be allocated to particular focus areas and special items. Within two years after the beginning of the Swiss-Czech Cooperation Programme, a review shall assess thematic and geographic priorities, redirect the initial financial allocations as agreed, and determine the priorities for the not yet allocated part of the Contribution.

i. Visibility. Visibility of the Swiss-Czech Cooperation Programme for Czech and Swiss citizens is an important aspect that may be taken into account when selecting and implementing Projects. Both Parties undertake to inform proactively on their cooperation.

3.2 Implementation Strategies

a. Identifying Projects. Project identification significantly impacts the quality of the Swiss-Czech Cooperation Programme. The Czech Republic is responsible for the identification of Projects to be financed by the Contribution. Switzerland can offer the Czech Republic Project proposals.

b. Setting Project selection criteria. Project selection shall be based on a clear set of criteria. General selection criteria shall include:

- Responsiveness to the objectives of the Swiss-Czech Cooperation Programme;
- Adherence to the principles of the Swiss-Czech Cooperation Programme described in Chapter 2 of this Annex;
- Responsiveness to the strategic considerations outlined in Chapter 3.1 of this Annex;
- Anchoring in the national development planning and, if possible, the National Strategic Reference Framework and the respective Operational Programme(s);
- Innovation and/or the potential to offer new solutions that can be applied subsequently on a larger scale (pilot Projects);
- Capacity of the Executing Agency;
- Leverage potential (mobilisation of additional resources);
- Feasibility in the given time-span; and
- Sustainability of results.

Specific selection criteria for each focus area may be formulated prior to starting the implementation of the Swiss-Czech Cooperation Programme.

c. Supporting Project planning. Project preparation and detailed Project planning are of paramount importance for efficiency and effectiveness in Project implementation. Preparation support may be requested by the Czech Republic or recommended by Switzerland and shall be financed through the Project Preparation Facility (see Annex 3). Should there be insufficient funds available in the Project Preparation Facility to prepare a specific Project, the Czech Republic may request to transfer the additional funds from the respective Focus area to the Project Preparation Facility.

d. Enhancing implementation capacities. Successful Project implementation depends on the capacities of the implementing and monitoring organisations. If need be, capacity enhancement may be requested by the Czech Republic or recommended by Switzerland and may be financed by the Contribution as an integral part of Project financing.

4 Geographic Focus

At least 40% of the Swiss-Czech Cooperation Programme shall be spent in the geographic focus areas. For the first two years of implementation, the Swiss-Czech Cooperation Programme will focus on the two Regions of Moravia-Silesia and Olomouc, possibly in a later stage also on the Region of Zlin.

5 Thematic Focus and Indicative Financial Allocations^{*}

The following thematic focus and indicative financial allocations shall apply to the Swiss-Czech Cooperation Programme:

1. Security, Stability and Support for Reforms			
N°	Focus areas	Approach, objectives and eligible Projects	Indicative financial allocation
1.1	Regional development initiatives in peripheral or disadvantaged regions	<p><u>Programme or individual project approach with the following objectives:</u></p> <p><u>Objective 1:</u> Strengthen capacities on regional, micro-regional and local level in the geographic focus area.</p> <p>Types of eligible projects:</p> <ul style="list-style-type: none"> - Projects of the public administration fostering regional cooperation (e.g. in the field of infrastructure, education, social services, culture) among different local authorities - Revision of regional or micro-regional development plans - Strengthening municipal capacities for service delivery - Capacity enhancement of public or private entities engaged in fostering regional development - Long-term oriented system-development to build up efficient and integrated inter-communal policy-making and common delivery of services - Twinning to provide links and networks between institutions, municipalities and regions of the Czech Republic and 	5.05 million CHF

^{*} Changed on 25 May 2009
